

MAZEN WALID

FRONT-END DEVELOPER

01270902257 | mazenwalid385@gmail.com | github.com/Mazen-Walid0 | Egypt

PROFESSIONAL SUMMARY

Front-End Developer specializing in building responsive, high-performance web applications using modern JavaScript frameworks. Experienced in developing scalable e-commerce interfaces with clean UI, state management, and API integration. Strong focus on writing maintainable code and delivering smooth user experiences.

TECHNICAL SKILLS

Languages	HTML5, CSS3, JavaScript (ES6+)
Frameworks & Libraries	React.js, Redux Toolkit, Tailwind CSS, Sass / SCSS
Tools & Technologies	Git & GitHub, Axios, Vite, React Router DOM, React Icons, React Hot Toast, npm, Postman
Core Skills	Responsive Web Design, API Integration, State Management, Component-Based Architecture, UI/UX Implementation

PROJECTS

E-Commerce Project – Shoply Plus

GitHub | Live Demo

Tech Stack: React (Vite), Sass, Tailwind CSS, Redux Toolkit, Axios, React Router DOM, React Icons, React Hot Toast

Developed a scalable e-commerce web application with modern UI and advanced state management.

- Dynamic product listing with category filtering and pagination
- Shopping cart and favorites system with localStorage persistence via Redux Toolkit
- API integration using Axios with DummyJSON API for dynamic product data
- Fully responsive design across all devices
- Clean and reusable component structure

E-Commerce Project – Shoply 2

GitHub | Live Demo

Tech Stack: React (Vite), React Router DOM, Axios, React Icons, React Hot Toast

Built a responsive e-commerce interface focusing on performance and user experience.

- Product browsing and category navigation
- Cart management functionality
- Interactive UI with real-time notifications using React Hot Toast
- Responsive layout optimized for mobile and desktop
- API integration for dynamic product data

EDUCATION

Commercial Institute

Expected Graduation: 2025

Egypt

CERTIFICATES & TRAINING

- HTML & CSS — Full course covering layouts, Flexbox, Grid, and responsive design
- JavaScript (ES6+) — Structured course by Osama Elzero, covering OOP and DOM manipulation
- React.js — Component architecture, Hooks, Context API, and state management
- Tailwind CSS v4 — Utility-first styling with custom theming
- Sass / SCSS — Advanced CSS with variables, nesting, and BEM methodology
- Redux Toolkit — Global state management, async thunks, and localStorage persistence
